

Overview

Submit Credit API allows you to submit a credit transaction to send money to the customer. The API requires HMAC signature, please refer to *API Authentication* for more information about the signature.

API Endpoint	https://{server.com}/api/v3/credits
Method	POST
Content Type	Application-json

Payment Flow

1. The merchant submits the credit request to Payamigo platform
2. The Payamigo platform submits the credit request to the PIX processor.
3. If the PIX processor responds to Payamigo successfully, the transaction goes into pending status
4. The Payamigo platform responds to the merchant with the transaction status of "CREDIT_PENDING"
5. The PIX processor notifies Payamigo of the final transaction result.
6. The Payamigo platform notifies the merchant of the final credit result.

Refer to *Real-Time Notifications* for more information about the notification.

Request Parameters
